

Matthew Arnold Primary School

Social Media Policy

Aims

This policy aims to:

- Set guidelines and rules on the use of school's social media channels
- Establish clear expectations for the way members of the school community engage with each other online
- Support the school's policies on data protection, online safety and safeguarding

Staff, pupils and parents/carers are required to read, understand and comply with this social media policy.

This policy applies to the use of social media for both business and personal purposes, whether during school/working hours or otherwise.

It applies regardless of whether the social media is accessed using:

- School IT facilities and equipment
- Equipment belonging to members of staff and pupils
- Any other IT/Internet-enabled equipment

All members of the school should bear in mind that information they share through social networking applications, even if they are on private spaces, may be subject to copyright, safeguarding and data protection legislation. Everyone must also operate in line with the school's equalities, harassment, child protection, safer recruitment, and online safety and ICT acceptable use policies.

Definition of social media

For the purposes of this document, 'social media' is considered to include all technologies that allow individuals to communicate and share information (including photos and video).

This includes group messaging services such as WhatsApp.

Staff responsible for our social media accounts will also ensure that all content shared on social media platforms is age appropriate for the school community.
