Dear Parents and Carers,

Re: Community Litter

Recently, we have observed an increase in litter around our school grounds and the surrounding area. I am sure you agree that we all want our school grounds and community to be a clean and litter free environment.

To raise awareness of the importance of disposing of litter correctly we will be speaking to children in assemblies and looking at ways to keep our community clean.

We ask for your support in reinforcing these messages at home and within the community. Please speak to your child about littering and set a positive example by disposing of waste responsibly, we all want our community to be a clean and pleasant area.
Thank you for your continued support.

Yours sincerely,
